PURPOSE OF THE ASSOCIATION

Visual Arts Alberta Association (the "Association") is a not-for-profit organization incorporated provincially under the Societies Act of Alberta on February 16, 1996 and operating as CARFAC Alberta as of September 29, 2018. As a Provincial Arts Service Organization, the organization is exempt from the payment of income tax under Section 149(1) of the Income Tax Act.

The Association is an affiliate for the national arts organization Canadian Artists' Representation/Le Front des Artistes Canadiens (CARFAC) and operates to provide a communications hub between members of the visual arts community and the general public. By partnering with art groups and government, the Association implements programs that promote Alberta art and artists. Through communication, professional development, exhibitions, education and advocacy, the Association works to advance the socio-economic conditions for all visual artist. The Association believes that artists play a vital role in the cultural life of all Albertans.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements were prepared in accordance with Canadian Accounting Standards for Notfor-Profit Organizations. Significant accounting policies observed in the preparation of the financial statements are summarized below.

Revenue recognition

The Association follows the deferral method of accounting for contributions.

Restricted contributions are deferred and recognized as revenue in the year in which the related expenses are incurred. Contributions are recognized based on the nature of the related restriction.

Unrestricted contributions, including pledges and donations, are recognized as revenue when received or receivable if the amount can be estimated and collection is reasonably assured.

Membership revenue is recognized over the term of the memberships purchased. Deferred membership revenue represents the portion of annual memberships carried over to the subsequent year.

Program revenue is recognized when received, or when receivable, if the amount to be received can be reasonably estimated and collection is reasonably assured.

Property and equipment

Non-profit organizations with average annual gross revenues of \$500,000 or less in the current and preceding years may expense additions to their property and equipment in the year of purchase. As such, additions to property and equipment are expensed in the year of purchase. In the current year, the Association expensed capital additions in the amount of \$1,180 (2018 - \$nil).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Donated goods and services

The Association recognizes donated goods and services at their fair value, when it is reasonably determinable, when the goods and services are used in the normal course of operations and when they would otherwise have been purchased. In the current year, the Association received and recognized in the financial statements contributed goods and services valued at \$325 (2018 - \$4,435).

Financial instruments

All financial instruments are initially measured at fair value, and, unless otherwise noted, the Association subsequently measures its financial instruments at amortized cost.

Allocated expenses

The Association allocates certain of its office and payroll expenses, as well as salaries and wages by identifying the appropriate basis of allocating each component expense, and applies that basis consistently each year. These expenses are allocated on the following basis:

- Executive Director's salaries and wages are allocated based on hours spent on each function.
- Office and payroll expenses are allocated based on management's best estimate of their usage across each function.

Measurement uncertainty

The preparation of financial statements in conformity with Canadian Accounting Standards for Notfor-Profit Organizations requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Significant estimates include collectability of accounts receivable and allocation of office expenses across functions. Such estimates are periodically reviewed and any adjustments necessary are reported in earnings in the period in which they become known. Actual results could differ from these estimates.

RESTRICTED NET ASSETS

By Motion of the Board, the Association has established a restricted cash reserve (AFA reserve) and is required by the grantor, Alberta Foundation for the Arts, to maintain a reserve of 10% of yearly expenditures. The reserve is to be used either as i) a contingency fund in the event of an emergency, or ii) to pay all debts of the Association in the event that the Association is dissolved.

During the year, \$338 (2018 - \$1,167) was transferred from unrestricted funds to the AFA reserve.

By Motion of the Board, the Association has established an internally restricted reserve (Contingency reserve) and is required to maintain a reserve equal to three months of operations (expenditures) based on the previous fiscal year financial statements. 10. FINANCIAL INSTRUMENTS

The Association is exposed to various risks through its financial instruments. The following analysis provides information about the Association's risk exposure and concentration as of March 31, 2019. Unless otherwise noted, the Association's risk exposure has not changed from the prior year.

Credit risk

Credit risk arises from the potential that a counter party will fail to perform its obligations. The Association is exposed to credit risk from customers and members. The maximum exposure to this risk is the carrying value of accounts receivable on the balance sheet. The Association has a significant number of customers and members, which minimizes the concentration of credit risk.
