WHO SHOULD APPLY:

SNAP is seeking proposals from Artists, Curators, and Collectives for gallery exhibitions during the 2023/2024 exhibition seasons. Local, national, and international Artists at all stages of their career are encouraged to apply. SNAP's mandate is to support artistic practice in printmaking.

Proposed exhibitions should engage with printmaking and print-related media. Experimental approaches and those that challenge our expectations of the medium are welcome and can include video, performance, animation, installation, sound, public or offsite art projects, multiples for distribution and/or many other approaches.

SNAP is dedicated to supporting representation of and exhibition opportunities for Indigenous and Black Artists, and Artists of Colour. Discussion, resource sharing, and a shared awareness regarding systemic and organizational barriers to full and equal participation in arts and culture will be an active and ongoing part of the review and selection process.

How exhibitions are selected:

SNAP selects exhibitions through a peer review process.

The peer review committee will be made up of Artists and other Arts Practitioners from within SNAP's membership and those external to the organization. A member of SNAP's programming staff and a member of the Board of Directors will also participate in the review process. Names of peer reviewers are published in SNAP's annual report each year.

The selection committee is developed with a focus on balancing demographics, career stage, and ensuring broad representation from our immediate community and larger audiences.

All submissions are reviewed independently by peer reviewers before they meet. The peer selections committee is asked to work through consensus in selecting exhibitions and arriving at a balanced season with an aim of presenting diverse approaches, themes, and practices with an emphasis on artistic merit as well as representation of local, national, and international artists. Local emerging artists will make up between 30-50% of SNAP's exhibitions annually.

The peer review committee's selections are subject to final approval by The SNAP Board of Directors.
